

RALLY SOLAR BARCELONA 2003

Electric Vehicle Demonstration Rally June 14th and 15th of 2003 in Barcelona

RALLY SOLAR BARCELONA 2003 is a demonstration and non competitive race in downtown Barcelona.

The race is open to any participant with any solar-electric vehicle. It pretends to promote and boost the technology with more than 100 years of existence.

Why a Solar Rally?

The actual situation of contamination in big cities, produced mainly by vehicle emissions, is reaching untenable levels. For this reason, its necessary the use of clean and environmental friendly energies.

Electric vehicles are already in the streets and it is necessary that common people begin to know their existence and its economic and environmental gains.

The aim is to reduce noise level, contamination and petroleum dependence in the cities, using the sun as an energy source.

ADTS association organizes the Rally and coordinates all technical aspects. With the support of Barcelona chairmanship, Spanish Energy Agency, Generalitat of Catalunya, RACC foundation and other associations.

RALLY SOLAR Activities

Saturday, June 14th

12h00: Vehicle exposition in the Cataluña Square. There will be technical explanations for the public, and use some vehicles to do a tour in a close circuit.

17h00-19h00: Conference-debate about non contaminant vehicles.

The charge of electric vehicles will be done taking energy from the network assisted by solar panels.

Sunday, June 15th

10h00: Reception of vehicles

12h00: Start of RALLY SOLAR.

The downtown circuit is 30 km long, passing through the 10 districts of Barcelona. The vehicles will run integrated in the traffic and following in every moment all traffic lights.

Vehicles will be classified in different groups by their technical characteristics.

The final classification will be in order of their electrical consume.

12h00 – 13h30: Micro RALLY SOLAR for children.

14h30: Lunch

17h00: Prize-giving event.

18h00: Closing event.

**Atersa – Ecotecnia - Ecoreciclat - Elektron - Era Solar - Fundació Terra
Intiam Ruai – Isofoton - Monsó y Benet - Trevol - The Ecologist - Techno Sun**
